

June 30, 2009

Dear Representatives,

Attached is a file with the legislation prepared by the North Carolina Home Inspector Licensure Board for mandatory pre-licensing education. Please review it and you may want to compare it to the content of SB1007-HR979. This is the proposed licensing board legislation, which is referenced in my articles, emails and also Bruce Rudd's report to NC-ASHI Board of Directors that was killed by Commissioner Goodwin to accommodate Lisa Martin and the home builders.

Perhaps it should be considered as a substitute for SB1007-HR979. The legislation prepared by the Board is from the duly legislated and duly appointed source, not special interests and does an excellent job of protecting the public. Please feel free to contact me for any additional information or clarification.

Thank you for your time and attention.

Respectfully,
